Dashboard Insights: Revenue Performance Analysis

A comprehensive review of key metrics and opportunities for growth

Executive Summary

£2M	162	332
Total Revenue	**Churn Cases**	**Active Customers**
Generated from 332 customers	Significant retention challenge	Strong customer base

Whilst revenue performance is robust, customer retention remains a critical area requiring immediate attention.

Revenue Trend Analysis

Steady Growth, Recent Concerns

Revenue increased consistently from 2023 through 2025, demonstrating strong market presence and customer acquisition.

However, a noticeable decline in 2026 suggests potential market saturation, reduced demand, or competitive pressures.

Action Required: Investigate factors contributing to the 2026 drop and develop recovery strategy.

Made with GAMMA

Product Category Performance

Top Performers

Sports and Clothing are leading revenue generation, showing strong market demand and effective product positioning.

These categories represent our competitive advantage and should receive continued investment.

Opportunity Areas

Electronics is underperforming relative to other categories, indicating potential issues with product selection, pricing, or customer appeal.

This presents a clear opportunity for strategic improvement and revenue enhancement.

Customer Segment Analysis

High-Value Segment

Contributes the **highest revenue** despite fewer customers

These customers are critical for business growth

Medium Segment

Has the **highest number of customers**

Significant opportunity for conversion to high-value

Low Segment

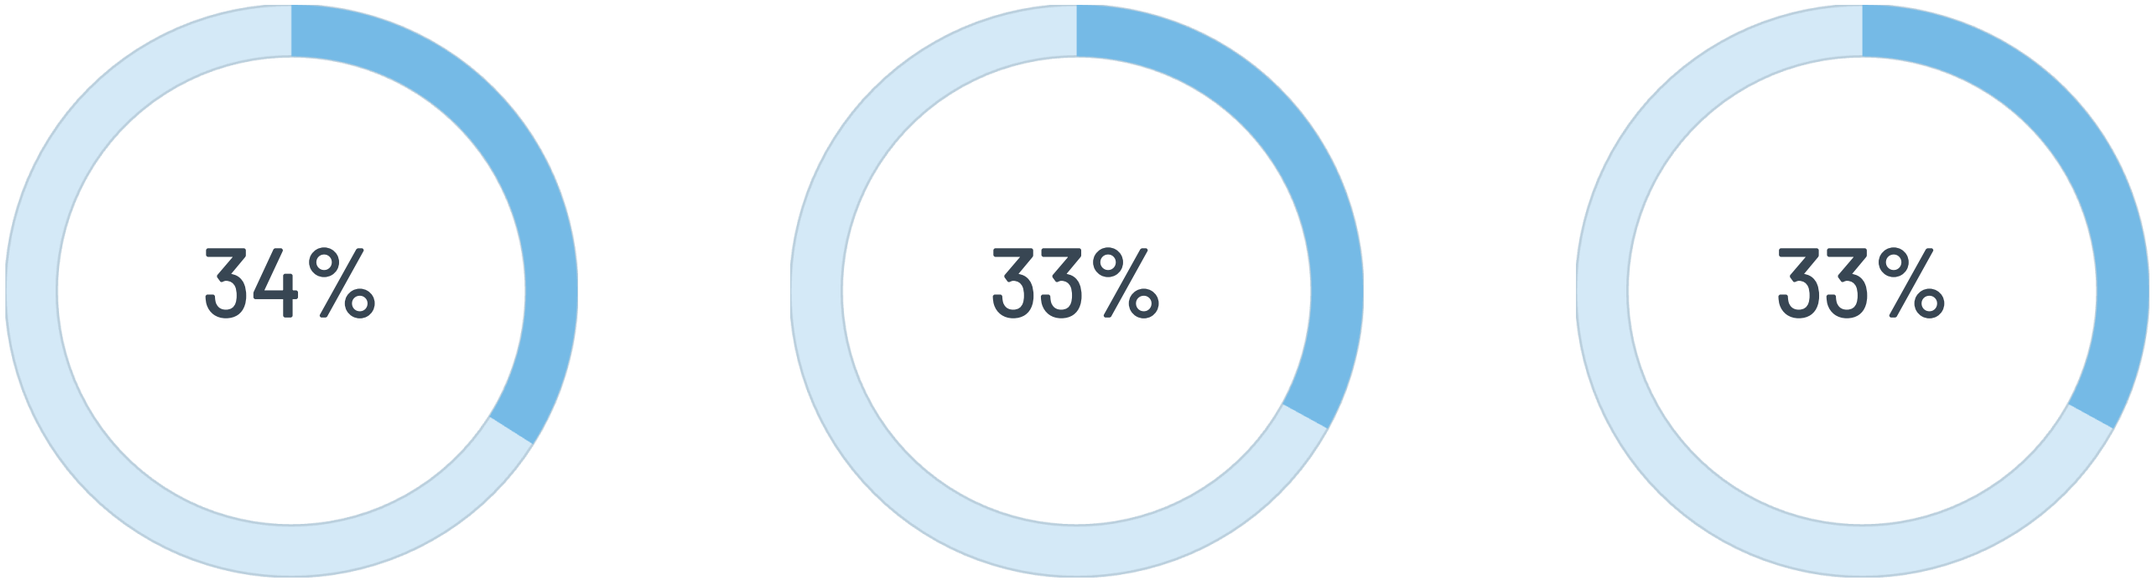
Smallest customer base and revenue contribution

Requires targeted engagement strategies

The balanced distribution across segments presents a clear opportunity to convert medium customers into high-value ones.

Made with GAMMA

Payment Method Trends



Cash | Card | UPI

Payment methods are **almost equally distributed**, with a slight preference toward digital payments (Card and UPI).

This indicates a market shift towards cashless transactions, requiring continued investment in digital payment infrastructure.

Age Distribution Profile

Core Active Audience

The majority of customers fall within the 25 to 45 years age bracket, representing our primary target demographic.

This age group demonstrates higher purchasing power, brand loyalty, and engagement with digital channels.

Marketing Focus: Concentrate campaigns and messaging on this active audience segment.

Quarterly Performance Pattern

1

Q1

Stable performance

2

Q2

Noticeable dip

3

Q3

Recovery phase

4

Q4

Full recovery

The **Q2 dip followed by Q3 and Q4 recovery** suggests seasonal effects or temporary business challenges.

Understanding these patterns can help optimise inventory and marketing efforts throughout the year.

Key Areas for Focus

Reduce Churn

Address 162 churn cases with targeted retention programmes and improved customer experience

Strengthen High-Value Engagement

Focus on retaining and growing the high-value customer segment that drives revenue

Improve Underperforming Categories

Develop strategies to boost Electronics performance and address revenue gaps

Convert Medium Customers

Implement programmes to move medium segment customers into high-value tier

Made with GAMMA

Strategic Roadmap Ahead

01

Immediate: Churn Reduction Programme

Launch customer retention initiatives and satisfaction surveys

02

Short-term: High-Value Customer Campaign

Develop loyalty programmes and exclusive offers for high-value segment

03

Medium-term: Electronics Category Revamp

Revise product selection, pricing strategy, and marketing approach

04

Long-term: Customer Tier Progression

Create pathways for medium customers to become high-value

With focused execution on these priorities, the business can transform strong revenue into sustainable, profitable growth.
